

Minutes for School Council Meeting:

26th February 2009

Matters arising:

- Mr Scowen came up with idea of 2 covered areas instead of one large one, but designs already made so cannot be pursued.

Yr 7 matters:

- Concern about why there are teacher changes in some subjects. A letter to parents about why these changes happen might be advisable
- Be more green, recycle around the college (e.g. compost heap)
- Football being played in the playgrounds can now move to the field as weather has improved

Smoking:

- Come up with a sanction that will be a deterrent from smoking on site
- Talk to all the smokers in a group instead of individually might help the situation if all are being told instead of one to avoid pressures from others
- Talk to a smoker or ex- smoker to get their ideas on what would be an effective deterrent
- Bring in someone who has had an illness though cigarettes to talk to the group about the hazards.
- People to speak in key stage 4 assemblies – yr 11: Rosie and Amy
- yr 10: Aileen and Alice
